Bohn Eliza and Maria married gentlemen who were at different times the private secretaries of the President. At that time John Quincy Adams was Secretary of State and Mrs. Hay made his life hard, for she had him communicate to the foreign ministers her rulings regarding receptions and visits to the White House. But when Mr. Adams became President, he appointed Mr. Hay to be a judge and made Mr. Gouvernour postmaster of New York city.

KIND TO THE POOR.

Maria took is by turns, living at times in New York, Washington and Oak Hill. After the death of Mrs. Hay, who was also living there, He was very poor and in Ral, on July 4th, died, making the third President of the United States who had died on the date of the nation's birth.

Mrs. Gouvernour seems to have been far more popular than her sister. After her father's death she continued to come to Dak Hill, bringing her little son, Samuel L, Jr. Taels summers were always spent there and they usually drove in the cartiage from Washington to the old homepicad, the bagsage wagons bringing up the rear, making a long caravan.

"Mrs. Gouvernour was kind-hearied and pen-handed and the poor near Oak Hill welcomed her coming.

A writer referring to her says: "Even more than her sister, she was fond of

(Special to The Times Dispatch.)
NEW HAVEN, CONN., February 7.—
The body of Mrs. Tracy Peck, wife of Professor Peck, of Yale University, was found Friday in Fort Hale Park, at Morris Cove, after parties of students had scarched in all directions for the missing weman.

When found the body was lying below when found the body was just below a cliff on the beach near the water's edge. There was a slight bruise on the forehead, but this is not thought to have been sufficient to cause death. The theory of the coroner is that Mrs. Peck's death was due to exposure, although she may have been injured by a fall from the top of the cliff.

The discovery of the body ended a search in which hundreds of Yalo sudents took part. Mrs. Peck had been sick from the grip of late, but feit better and left home in the afternoon, saying that she was going to do some shopping. When she did not return the family made inquiries among friends, in the hope that she would be found making a visit somewhere. Later the police were informed, and students and professors started an organized search. Parties were sent to every part of the city, including East Rock Vest Rock and along the east and west shores of the harbor and sound. The discovery of the body was made by a wolmen who was strolling along the cliff in Fort Hale Fark.

It is believed that Mrs. Peck wandered to the park while demented. Her pocketbook was found untouched, clasped in her hand. She was fify-three years old and lived at No. 12! High Street.

### RUNS TRAIN OFF THE TRACK

D., L. and W. Switchman Fearing a Collision. Uses the "Derailer."

(Special to The Times-Dispatch.)
PATERSON, N. J., February .—Because
of an alleged fallure to light the lamp in a block signal tower, there was a close approach to an accident, possibly serious, at Mountain View. The tracks of the Lackawanna and Greenwood Lake roads cross at right angles there, and last evecross at right angles there, and last evening a fast freight approached the crossing just as a passenger train on the Greenwood Lake Road appeared in view. The switchman in charge of the tower set the block signal against the freight on the Lackawanna Road. Notwithstanding the setting of the signal, it is said, the Lackawanna train kept on, and the switchman realized at once that the engineer had not seen the signal. He pulled a switch which put on the derailer, and a moment or twe later the Lackawanna engine was ploughing over the ties. The engine soon came to a stop. It was undamaged, as were the cars. The fireman on the Lackawanna engine was firing the furnace when his engine was derailed, and the sudden lar threw him off the tender to the ground. He landed on his face and his right eye was injured. As it turned out, the derailment of the train was unnecessary, as the engineer of the Greenwood Lake train, seeing that the Lackawanna train was not slockening its speed, brought his own engine to a standstill about fifteen yards from the intersection. ning a fast freight approached the cross-
